## Commentary

According to George Cœdès (1937–1966, vol. 4, p. 19), the inscription is a small fragment made of schist containing 6 lines. It has been found between the temples S1 and S2 of Sambor Prei Kuk site. It might belong to a stela, different from the stela of K. 607.

## Bibliography

Preliminarily edited by Dominique Soutif from the estampage EFEO n. 495.
